

## BOOK REVIEW

One Piece is an unusual book called a Manga. Mangas are translated Japanese graphic novels, and some people find these hard to read due to the fact that everything is written backwards...

### *THE FORMAT*

*The format of a manga is hard to explain, but this is my best attempt. Basically, you start where the last page is and you read the speech bubbles on the right first.*

### **THE STORY LINE**

Our story begins at a small village where we meet the main character Monkey.D.Luffy a young boy that aspires to be a pirate after “Red Haired” Shanks uses the village as a base when they aren’t out at sea robbing other pirates. This is a perfectly reasonable dream until Luffy eats The Devil Fruit (A.K.A the gum gum fruit) giving him the ability to stretch like rubber. But there is a terrible downside, he will only sink! Eating a devil fruit means he can’t swim. But will this stop Luffy???

There are 95 books containing the One Piece story.
