Rating: 5 stars

About the book: I don't want to give away the book too much so I'll just give you a taster. Raina is a normal girl that goes to a normal school but when she knocks her teeth out she has to get braces and her life becomes a lot harder. A great book about daily challenges, annoying siblings and love.

Favourite characters: My favourite character is the main character Raina but my other favourite character would probably be Raina's sister.

Why I like this book: I like this book because it has the right amount of humour and sometimes she is sarcastic which I like. I also like this book because it's a great storyline there aren't too many events or two little events and it links to the other amazing book, Sisters.

Age rating: I recommend this book to mainly people age 9 and every other age above nine.

I definitely recommend this book so if you think you would enjoy it give it a read; I know you'll enjoy it.
